## PEEC—PEACE EDUCATION IN EARLY CHILDHOOD TO PREVENT BULLYING

We have come a big step forward on the road to peace. In 2020 the project consortium has developed all necessary documents to start educating ECEC practitioners in peace education.

### The PEEC CURRICULUM

A curriculum for the implementation of peace education in early childhood education based on a comparative national analysis conducted in Croatia, Germany, Lithuania and Spain is available in two versions ready for download on the project website in Croatian, German, Lithuanian, Spanish and English. A short one which mainly consists of a summary of the national survey results and the derived PEEC Curriculum, which consists of a Competence Matrix and Units of Learning Outcomes for ECEC teachers continuing professional development. The long version goes into further detail of the survey outcomes per country and also gives recommendations.

### PEEC CPD COURSE—GUIDELINES & MATERIAL TOOLBOX

Based on the curriculum we have created a framework for a CPD course for ECEC teachers, guidelines of how to implement a CPD course on peace education and a toolbox of ready to use classroom materials. The classroom materials cover 25 values which are helpful in establishing peace. They are grouped in three main categories: self-value – understanding and knowing myself as an individual being; me and others – understanding group dynamics and diversity; conflict resolution – prevention of violence and peaceful conflict resolution. The learning materials convey the inherent values in a non-formal playful way, fostering the creativity and critical thinking skills of the children at the same time.

## PEEC—Online train the trainer event

### 17:00-19:30 CET

To promote the materials developed for training ECEC professionals in peace education we scheduled a 3 day online training.

The first two days will introduce contents and practical activities to favour the acquisition of values and aptitudes, such as solidarity, creativity, civic responsibility, the capacity to solve conflicts by non-violent methods and critical thinking. There will also be time to debate and exchange ideas about peace education to promote equality, diversity and inclusion in early childhood education. And of course we will introduce the participants to the ready to use material toolbox. Then we have one week until the final meeting. **May 5<sup>th</sup> 2021 (Wednesday).**

The idea is to leave sufficient time for the participants to test what they have learnt and implement the materials in their classroom and come back with their results and proposals for improvement.

If you are interested in taking part in this training, please contact either one of the national contacts mentioned on the next page or write an email to:
