VALIDATION OF PEEC MATERIALS

Although, originally, the professional training course (CPD) was predicted face to face in Madrid, do to a Covid restriction it was organized online.

Adjusting the CPD online enabled a larger number of participants from all partners countries and opened a space for piloting the learning materials during the CPD course that lasted 3 days (May 5, 6 and 12, 2021).

After a second day, all 26 learning materials were presented as an open resource on project webpage (<http://peec-online.eu/outputs/classroom-activities/>). Participants were able to choose which materials they wated to pilot in their classrooms and kindergartens in the period of 7 days and then rejoin on the third day of CPD course.

Participants filled a specific questionnaire that contained 10 questions to validated the materials that were implemented with children. Altogether, there was 13 responses (5 from Spain, 4 from Lithuania, 3 from Croatia and 1 from Germany). The results were very highly satisfied as all participants stated that they would recommend materials to their collages and that they will keep using the materials in their work with children.

In general, the materials were highly rated as easy to use and appropriate for children age as children actively participated in activities that provided them a deeper understanding of ethical values.

Furthermore, the participants also provided their view on how materials could be improved or adjusted to specific needs of a group.

To see the full report and participation answers, but also an implementation examples from each country, click on the following link (VALIDATION AND IMPLEMENTATION DOCUMENT http://peec-online.eu/wp-content/uploads/Validation_PEEC_materials-1.pdf)
